

Application for PIRL Computer Facility user account

Researcher Name:

Date:

Researcher Position:

Campus address:

Telephone:

Email address:

Auto-forward to this address? ____

Requested system username (up to 8 lowercase letters):

Initial Password (See password notes at bottom of application):

Description of Project:

Expected Duration - Start:

End:

Special resource requirements (data volume, group access, special hardware or software?):

Password Notes:

1. Make password hard to guess – No dictionary words or proper names. Use mixed case and punctuation.
2. Change password after initial login using the “passwd” command.
3. Use a unique password. Do not reuse a password you might have for other accounts.
4. Consider using DSA public key encryption for remote logins. See the PIRL User Notes.
